

BADLANDS Victory ILL-VIC-FR Front RUN/TURN™ Module with LOAD EQUALIZER

Thank you for purchasing a Badlands Illuminator Module! We're sure that you will be completely satisfied with the performance and ease of installation of your new module. Before you get started, PLEASE read these instructions and helpful tips so that you understand how to install your module correctly. An improper installation will void the warranty.

FEATURES: This Badlands, Victory Run/Turn Module is designed to combine running light and turn signal functions to each front turn signal through (1) wire per side. The ILL-VIC-FR run/turn module is 100% Plug-N-Play and comes with labels on each connection for easy installation. Our module has a built-in Load Equalizer which will prevent a "rapid-flash" turn signal or indicating light. Now you understand the features of our Illuminator Module, let's talk about installation.

PLUG-N-PLAY: This module is 100% Plug-N-Play with the proper connectors pre-installed and labeled. The wiring colors on our Run/Turn Module are defined in the color chart below (bottom left corner). The fused ORANGE wire on our module MUST be connected to a KEY ON POWER, and Black wire connects to GROUND. **(NOTE, we recommend that you connect the FUSED orange wire from our module to the accessory "KEY ON" Power found inside the front fairing, and the black wire to the accessory GROUND. Using the provided 1/4" male tab contacts).**

DO NOT CONNECT THE ORANGE FUSE WIRE TO CONSTANT POWER OR YOUR LIGHTS WILL STAY ON AND DRAIN YOUR BATTERY

INSTALLATION: The ILL-VIC-FR module offers Plug-n-Play technology, making installation quick and easy. Simply remove your front fairing, locate your left and right turn signal wiring, plug our module in between. Connect to the accessory power (KEY ON) and ground contacts found in the fairing with our provided 1/4" tab terminals, and your done. **(NOTE, ILL-VIC-FR is intended for 2011-Up Cross Country Models ONLY)**

ILL-VIC-FR: Plug-n-Play Victory Front Run/Turn Module™ (With built in Load Equalizer)
(Fits all 2011-UP Cross Country Models ONLY)
