

Letric Lighting Headlight Adapter Harness

Easy to install!

1. BE SAFE, DISCONNECT THE BATTERY FIRST!
2. Our Headlight Adapter Harness is for 2014-Up models with a 7" headlamp.
3. When changing from your OEM headlamp to a new LED Letric Lighting Co. headlamp, the included harness must be plugged in between the new LED and the OEM wiring harness.
4. Start by removing the OEM headlamp, and attached our harness to the 4-
5. position connector.
6. Now attach the other end of our harness with the 3-position H4 connector to your new Letric Lighting Co. LED headlamp.
7. NOTE: the extra BLUE wire is for LED's with additional DRL accent lights.
